

Planning for our future

Artist's impression of reception
outdoor play space

Bowmer + Kirkland has been selected by the Department for Education (DfE) as the main contractor on plans to redevelop Gomersal St Mary's CE(C) Primary School in Gomersal.

Some of the current buildings at the school are in a poor condition and approaching the end of their useable life span. The proposals include the demolition of four existing buildings and the construction of a new school building, new external facilities and layout. The Children's Centre building will remain.

The DfE has tasked Bowmer + Kirkland with developing a scheme that will: better accommodate pupils, staff and the community; enable the school to remain operational on-site during construction; targets net zero carbon in operation; and provides improved facilities.

The project team has been working closely with the school in preparation of the proposals and would like to invite the local community to review the plans at a public exhibition or via our website.
